

Experiment Questionnaire

Thank you very much for participating in this 3D User Interfaces experiment. I would like to ask you a few questions. Your privacy is protected because your name will not appear on this questionnaire.

Information about you:

1. What is your occupation or (if a student) major field of study?

SW Engineer

2. What is your age? 40's

3. What is your gender? Female X Male _____

4. What is your race? White _____ Asian _____ Black/African

_____ Other _____

Prefer not to respond X

General Questions

1. How easy is this application to use? (circle one)

☒ Very easy to use - if you read the Help first. 😊
☐ Easy to use
☐ Neither easy nor difficult to use
☐ Difficult to use
☐ Very difficult to use

2. Is this something you wish you had in school? If not- why

Yes. I'm a very visual learner so seeing all the visual aids helped understand the lesson.

3. What is an important feature you think the application is missing?

Navigation buttons to exit web/video.

I didn't read the Help section before playing w/ the app. If I navigated to several pages deep, had to hit the phone "back" button.

4. Is there anything about the application that would make you hesitant to use it?

Possible information overload; might get too distracted w/ all the info available on site/videos etc.

5. Do you think that an application of this variety could enhance your learning experience?

Yes.

6. Can you think of any improvements to be made to the application?

Navigation

7. Can you see this application impacting students outlook on learning? If so, in what ways?

This would have a great impact on learning.

It provides ^{pertinent} resources at the touch of a button.
