

Experiment Questionnaire

Thank you very much for participating in this 3D User Interfaces experiment. I would like to ask you a few questions. Your privacy is protected because your name will not appear on this questionnaire.

Information about you:

1. What is your occupation or (if a student) major field of study?

Heavy equipment operator

2. What is your age? 23

3. What is your gender? Female _____ Male X

4. What is your race? White X Asian _____ Black/African
_____ Other _____

Prefer not to respond _____

General Questions

1. How easy is this application to use? (circle one)

- ☒ Very easy to use
- ☐ Easy to use
- ☐ Neither easy nor difficult to use
- ☐ Difficult to use
- ☐ Very difficult to use

2. Is this something you wish you had in school? If not- why

Yes, for review content in textbooks, handouts, etc.

3. What is an important feature you think the application is missing?

a flashlight option while in the camera scene for low light situations.

4. Is there anything about the application that would make you hesitant to use it?

No

5. Do you think that an application of this variety could enhance your learning experience?

Yes

6. Can you think of any improvements to be made to the application?

A possibility to focus the camera?

7. Can you see this application impacting students outlook on learning? If so, in what ways?

Yes. Thinking on a math/science level, sometimes looking at examples in a textbook can be a little hard to follow so having this to access a step by step video of a problem would greatly enhance my learning experience, especially outside of the classroom.
