

Experiment Questionnaire

Thank you very much for participating in this 3D User Interfaces experiment. I would like to ask you a few questions. Your privacy is protected because your name will not appear on this questionnaire.

Information about you:

1. What is your occupation or (if a student) major field of study?

Software Engineer

2. What is your age? 27

3. What is your gender? Female _____ Male ☒

4. What is your race? White ☒ Asian _____ Black/African
_____ Other _____

Prefer not to respond _____

General Questions

1. How easy is this application to use? (circle one)

- ❖ Very easy to use
- ❖ Easy to use
- ❖ Neither easy nor difficult to use
- ❖ Difficult to use
- ❖ Very difficult to use

2. Is this something you wish you had in school? If not- why

YES

3. What is an important feature you think the application is missing?

~~Really more interactive~~ The application works great, the materials could be more interactive and complex, however that's more on the Textbook/Teacher to provide.

4. Is there anything about the application that would make you hesitant to use it?

No

5. Do you think that an application of this variety could enhance your learning experience?

Yes

6. Can you think of any improvements to be made to the application?

Possibly storing material links, so one could look back.

7. Can you see this application impacting students outlook on learning? If so, in what ways?

Yes, many students are visual learners. More interaction and hands on materials could be drastically helpful. Many students rely on Google to help them when their teacher or Book become confusing.
