Experiment Questionnaire

Thank you very much for participating in this 3D User Interfaces experiment. I would like to ask you a few questions. Your privacy is protected because your name will not appear on this questionnaire.

Information about you:

1. What is your occupation or (if a student) major field of study?

   Systems Engineer

2. What is your age? _39_

3. What is your gender?   Female _X_   Male _____

4. What is your race?   White _X_   Asian _____   Black/African

   _____   Other _____

                              Prefer not to respond _____

General Questions

1. How easy is this application to use? (circle one)
   - (❖) Very easy to use
   - ❖ Easy to use
   - ❖ Neither easy nor difficult to use
   - ❖ Difficult to use
   - ❖ Very difficult to use

2. Is this something you wish you had in school? If not- why

   Yes!

3. What is an important feature you think the application is missing?

   None.

4. Is there anything about the application that would make you hesitant to use it?

No

5. Do you think that an application of this variety could enhance your learning experience?

Yes

6. Can you think of any improvements to be made to the application?

No

7. Can you see this application impacting students outlook on learning? If so, in what ways?

Yes. Textbooks aren't always written to the level of the student. Having immediate access to Supplemental info, can give the Student confidence that they can find answers on their own, without having to contact a TA or the professor. It also frees the student from having to be near a computer w/ internet access while doing their work.
