Experiment Questionnaire

Thank you very much for participating in this 3D User Interfaces experiment. I would like to ask you a few questions. Your privacy is protected because your name will not appear on this questionnaire.

Information about you:

1. What is your occupation or (if a student) major field of study?

   Software Engineer

2. What is your age? _26_

3. What is your gender?   Female _____   Male _X___

4. What is your race?   White _X_   Asian _____   Black/African

   _____   Other _____

   Prefer not to respond _____

General Questions

1. How easy is this application to use? (circle one)
   - ❖ (Very easy to use)
   - ❖ Easy to use
   - ❖ Neither easy nor difficult to use
   - ❖ Difficult to use
   - ❖ Very difficult to use

2. Is this something you wish you had in school? If not- why

   Yes, videos would be a great supplement to text in books. Text books could link directly to online homework assignments instead of having to manually type them in.

3. What is an important feature you think the application is missing?

   A way to save links would be useful.

4. Is there anything about the application that would make you hesitant to use it?

No

5. Do you think that an application of this variety could enhance your learning experience?

Yes. Especially the idea of videos "in" the text book.

6. Can you think of any improvements to be made to the application?

Just saving links/codes

7. Can you see this application impacting students outlook on learning? If so, in what ways?

Yes, it enables a broader range of learning methods. E.g. videos and interactive activities that are easy to access from a text book.
